

LAB (1-7)

1.

2.

3.

The screenshot shows the Coddly Tech Online Linux Terminal interface. On the left, a sidebar lists various programming languages: Python, JavaScript, Java, C++, TypeScript, C, C#, Go, Ruby, Rust, PHP, Dart, Lua, and Swift. The main area is titled "Online Linux Terminal" and includes a "Learn Terminal" button. Below the title, it says "Write, run, and share code snippets - no setup required." The terminal window shows the following commands and output:

```
user$ echo "Hello" > sample.txt
user$ echo "Welcome to Linux" >> sample.txt
user$ echo "Ethical Hacking Lab" >> sample.txt
user$ cat sample.txt
Hello
Welcome to Linux
Ethical Hacking Lab
user$ tree
.
├── sample.txt

1 directory, 1 file
user$ head sample.txt
Hello
Welcome to Linux
Ethical Hacking Lab
user$ tail sample.txt
Hello
Welcome to Linux
Ethical Hacking Lab
```

The bottom status bar shows a weather icon for 30°C Partly cloudy, a search bar, and system icons for network, battery, and time (21:54, 16-07-2026).

4.

The screenshot shows the Coddly Tech Online Linux Terminal interface, similar to the previous one. The main terminal window shows the following commands and output:

```
user$ mkdir Demo
user$ ls
Demo
user$ touch Demo/file.txt
user$ echo "Hello Linux" > Demo/file.txt
user$ cat Demo/file.txt
Hello Linux
user$
```

The bottom status bar shows a weather icon for 30°C Partly cloudy, a search bar, and system icons for network, battery, and time (21:56, 16-07-2026).

5.

The screenshot shows the Caddy Tech Online Linux Terminal interface. The browser address bar displays `caddy.tech/playground/terminal`. The page header includes the Caddy Tech logo, navigation links for Catalog, Resources, and Company, a START LEARNING button, and a language selector set to English. On the left, a sidebar lists various programming languages: Python, JavaScript, Java, C++, TypeScript, C, C#, Go, Ruby, Rust, PHP, Dart, Lua, and Swift. The main area is titled "Online Linux Terminal" with a "Learn Terminal" button. Below the title, it says "Write, run, and share code snippets - no setup required." The terminal window shows the following commands and outputs:

```
user$ uptime
16:27:19 up 1 day, 2:37, 0 users, load average: 0.00, 0.01, 0.00
user$ date
Thu Jul 16 16:27:23 UTC 2026
user$ touch old.txt
user$ mv old.txt new.txt
user$ ls
new.txt
user$
```

At the bottom, a status bar shows a weather icon for 30°C Partly cloudy, a search bar, and system icons for network, battery, and time (21:58, 16-07-2026).

6.

The screenshot shows the Caddy Tech Online Linux Terminal interface. The browser address bar displays `caddy.tech/playground/terminal`. The page header includes the Caddy Tech logo, navigation links for Catalog, Resources, and Company, a START LEARNING button, and a language selector set to English. On the left, a sidebar lists various programming languages: Python, JavaScript, Java, C++, TypeScript, C, C#, Go, Ruby, Rust, PHP, Dart, Lua, and Swift. The main area is titled "Online Linux Terminal" with a "Learn Terminal" button. Below the title, it says "Write, run, and share code snippets - no setup required." The terminal window shows the following commands and outputs:

```
user$ touch myfile.txt
user$ pwd
/tmp/user/home
user$ wget https://example.com
user$
```

At the bottom, a status bar shows a weather icon for 30°C Partly cloudy, a search bar, and system icons for network, battery, and time (22:02, 16-07-2026).

7.

The screenshot shows a web browser window with the URL `caddy.tech/playground/terminal`. The page features a navigation bar with the Caddy Tech logo, links to Catalog, Resources, and Company, a 'START LEARNING' button, and a language selector set to English. On the left, a 'LANGUAGES' sidebar lists various programming languages: Python, JavaScript, Java, C++, TypeScript, C, C#, Go, Ruby, Rust, PHP, Dart, Lua, and Swift. The main content area is titled 'Online Linux Terminal' and includes a 'Learn Terminal' button. Below the title, it states 'Write, run, and share code snippets - no setup required.' The terminal interface itself has a 'Terminal' tab, 'Reset', 'Clear', and 'Run' buttons. The terminal window displays the following commands and output:

```
user$ mkdir test
user$ cd test
user$ touch file1.txt
user$ cp file1.txt file2.txt
user$ ls
file1.txt
file2.txt
user$
```

At the bottom of the terminal window, a note reads: 'Stateless terminal - every Run starts in a fresh /home. Press Shift+Enter to add a new line, Enter to run.' The browser's status bar at the very bottom shows a temperature of 30°C, 'Partly cloudy' weather, a search bar, and system icons for network, battery, and time (22:05 on 16-07-2026).
